¹ Beginning with the statement for December 31, 1958, the computed average interest rate on the public debt is based upon the rate of effective yield for issues sold at premiums or discounts. Prior to December 31, 1958, the computed average rate was based upon the coupon rates of the securities. This rate did not materially differ from the rate computed on the basis of effective yield. The Treasury, however, announced on November 18, 1958, that there may be more frequent issues of securities sold with premiums or discounts whenever appropriate. This "effective-yield" method of computing the average interest rate on the public debt will more accurately reflect the interest cost to the Treasury, and is felt to be in accord with the intent of Congress where legislation has required the use of such rate for various purposes.

² Computed on true discount basis.
³ Statutory debt limit, established at \$285 billion by the Act approved June 30, 1959, has been temporarily increased from July 1, 1962, to March 31, 1963, to \$308 billion; from April 1, 1963 to June 24, 1963, to \$305 billion and from June 25, 1963, to June 30, 1963, to \$300 billion.
⁴ Dollar equivalent of certificates issued and payable in the amount of 31,000,000,000 Italian lire and 207,000,000 Swiss francs.
⁵ Dollar equivalent of certificates issued and payable in the amount of 200,000,000 Swiss francs.
⁶ Dollar equivalent of Treasury bonds issued and payable in the amount of 93,050,000,000 Italian lire and 220,000,000 Swiss francs.

^c Any income derived from Treasury bills, whether interest or gain from their sale or other disposition, does not have any exemption as such, and loss from the sale or other disposition of any such bills does not have any special treatment as such under the Internal Revenue Code or laws amendatory or supplementary thereto. The bills are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. For purposes of taxation the amount of discount at which the bills are originally sold by the United States is to be considered to be interest.

^d Income derived from these securities is subject to all taxes now or hereafter imposed under the Internal Revenue Code or laws amendatory or supplementary thereto. The securities are subject to estate, inheritance, gift, or other excise taxes, whether Federal or State, but are exempt from all taxation now or hereafter imposed on the principal or interest thereof by any State, or any of the possessions of the United States, or by any local taxing authority. The following is applicable to savings bonds only: For the purposes of taxation any increment in value of savings bonds represented by the difference between the price paid and the redemption value received (whether at or before maturity) shall be considered as interest.

Attention is invited to Treasury Decision 4550 ruling that bonds, notes, bills, and certificates of indebtedness of the Federal Government or its agencies, and the interest thereon, are not exempt from the gift tax.

NOTE: Treasury bonds, generally, are subject to the provisions of this footnote with the exception of the 2 1/2% Treasury bonds of 1960-65 which are subject to the provisions of footnote e below.

^e Exempt both as to principal and interest, from all taxation now or hereafter imposed by the United States, any State, or any of the possessions of the United States, or by any local taxing authority, except (a) estate or inheritance taxes, and (b) graduated additional income taxes, commonly known as surtaxes, and excess profits and war-profits taxes, now or hereafter imposed by the United States, upon the income or profits of individuals, partnerships, associations, or corporations. ^f These issues being investments of various Government funds and payable only for the account of such funds have no present tax liability.
